You will no doubt say at first thought that you are surprised, but you must remember that the words were given with the list of others, and the pupils would naturally judge them to be written as a single word, in spite of the fact that note that "all right" was missed 180 times out of the 198. grade made by the Massachusetts High School reporting the best average from that state. Pupils trained in our own city schools almost equalled the average made by the Massachusetts students. Spelling has been emphasized here in the grades for the last eight years, and its result is seen in this examination. In justice to other schools from which our pupils have come, we will say that the lowest grade in this test was 49 per cent, which grade was made by one of our own city trained boys. We are preparing to have a standard test in Elementary Arithmetic later on in the year so that our pupils may be compared with those of other of the country.

Within the city limits of Los Angeles there are twenty-five parks, aggregating more than 4,000 acres in extent.

It is the consensus of opinion among quiet folk that entirely too much history is being made these days.

Deafness Cannot Be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We give One Hundred Dollars for any case of Deafness (caused by Catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free. F. J. CHENEY & CO., Toledo, O. Sold by Druggists, 75c. Take Hall's Family Pills for constipation.
